

# Benjamin Cook

Creative 3D Artist, Designer and Videographer

## About Me

I am a highly creative and multidisciplinary professional, blending over 5 years of design expertise with 3+ years of 3D modeling and animation experience. Skilled in **Blender**, **Unreal Engine**, and **Adobe Creative Suite**. I bring dynamic visuals to life across diverse mediums. My passion lies in collaborating on innovative projects and pushing creative boundaries, whether through graphic design, 3D art, or videography. My time at **ASDA** and my short term with **Weaveability** taught me the importance of team working, and how communication is the cornerstone of being a successful peer.

## Work Experience

### Freelance Videography (2022 - Present)

(September 2022 to Present)

- Produced high-quality video content for businesses and documentary clients, aligning with brief.
- Created motion graphics and visual assets using Adobe Premiere Pro and After Effects to enhance storytelling.
- Edited both self-shot and client-supplied footage to meet creative briefs and project goals.
- Captured event footage with attention to composition, lighting, and timing to ensure professional-quality results.

### Web Design, Weaveability, Manchester

(March 2018 to August 2018)

- Designed wireframes and interactive mockups for Warburtons' website redesign, focusing on user experience and responsiveness.
- Gained hands-on experience in a professional office environment, collaborating with developers and designers.
- Managed and updated internal tech inventory systems.

### Customer Service, ASDA , Edinburgh

(March 2023 to Present)

- Delivered friendly and efficient customer service in a fast-paced retail environment, supporting a wide range of customer needs.
- Ensured task completion under tight deadlines with attention to detail and time management.
- Maintained clean and organized workspaces, contributing to a positive customer experience and smooth store operations.
- Developed strong teamwork and communication skills while handling daily stock control and product placement.
